Terms of Sale

Delivery Free on orders of \$1.00.

Smaller orders 15c extra. All transportation charges to be paid by purchaser on all foreign orders.

Time of Delivery: Shipments will be made any time after June 15 to suit the purchaser's convenience. I recommend planting between July 15 and October 1. Orders will be filled any time during the season until the ground freezes.

Guarantee: My guarantee is, *you must be pleased.* If you are not satisfied after opening the package return it to me at my expense. There will be no quibbling over details, and your return postage will be refunded. All plants guaranteed true to name and free from disease. There are no Iris borers in this section. I grow my own plants, and every order is filled with the utmost care.

Substitutions: I will not substitute unless given permission to do so. However, it is impossible to keep a stock of Iris complete during an entire season and it is very satisfactory both to customer and dealer to make a second choice, and to encourage this I will include a beautiful Iris free of charge in every order that names two or more substitutes.

Early Dwarf Iris

One of the most interesting groups of the Iris family. Often these little fellows will be seen welcoming the first spring days even before the snow is entirely gone. They should be used liberally in the sunny rock garden and are fine border plants for hardy perennial beds or walks. Blooming period covers about five weeks just ahead of the intermediate group.

- ATROVIOLACEA**—5 in. Richest red violet with velvety falls. A perfect little gem. One of the earliest and most dependable. Have never known freeze to affect its blooming. Extra vigorous. Suggested as a fine border variety as the tiny blossoms form a solid mass of color, and the foliage is very small. 12 for **50c**, each **07c**
- AZUREA**—4 in. A charming little floweret of dainty sky blue. One of the earliest. Each **15c**
- CYANEA**—7 in. Extra large fine flowers of very dark blue violet. One of the best and most rugged of the dwarfs. 12 for **50c**. Each ... **07c**
- FAIRY**—8 in. A pleasing dark blue bicolor. Slender graceful flowers held well above the foliage. Very reliable. 12 for **50c**. Each **07c**
- HELGE**—8 in. A delicate light greenish yellow with a strong golden iridescence. A charming cut flower. Each **15c**
- JEAN SIRET**—8 in. A trim appearing flower of medium yellow with vivid orange beard. A reliable fall bloomer. Fragrant. Each **25c**
- NEOLA**—8 in. An entirely new color in dwarfs. Large lovely flowers of smoky lilac with the falls heavily suffused bronze, lending a golden brown tone. Fragrant. Bloomed again in October. A real beauty. Rugged. Each **25c**

*"It's Iris time! It's Iris time! Twixt
Tulip-days and Rose,
The garden walk in Iris time with
purple splendor glows.
The leafy spears are on parade, the
bugles of the June
Summon each bud and bloom and
blade with sturdy marching tune."*
